

HQ Pro-Stitcher™

The Future of Quilting Possibilities is here!

- 8" color touch screen mounted on your HQ Sixteen™ Stitch Regulated machine
 - View and manipulate designs on the screen
 - Record your own free motion design or pantograph design
 - Rotate an existing design
 - Resize to specific area
 - Precisely position a design on the quilt
 - Repeat your designs both horizontally and vertically
 - Watch your pattern path before quilting
 - Back up function if your thread breaks
 - Set the number of tie off stitches
 - Set the quilting speed and stitches per inch
 - And much more....

- Steady free motion movement with minimal extra cables or wiring attached
- No additional PC needed to run the HQ Pro-Stitcher (PC needed for downloading and creating designs)
- Simple to use integrated graphic settings with quilt friendly menus
 - *Fingertip Help menus on every screen*
 - *Quilt a pantograph or block pattern with confidence in a few simple steps*
- Ability to read most available digital quilt patterns
- Switch from computerized quilting to free motion quilting in seconds with a flick of the quick release mechanism
- Silent integrated motor control systems with fluid motion control
- Made and Built with integrated HQ Technology
- Includes exclusive design software by Cabin Logic for designing your own patterns
- Easy to download your favorite patterns from a USB port
- Quick set up; be quilting in no time!
